They all fall apart

As Team Anna splits and heads in different directions, a look at the trajectory of the campaign

TOM L. FRIEDMAN

From 2003 to 2007, India experienced steady growth, averaging 10.4% because of its unique mix of factors. One was its small and atomized civil society, which springed forth in a thousand flowers at the turn of the century. Another was its huge worker force, where the expansion of the global growth industry was creating a huge unskilled labor force at a price Indians could afford. A third was its educated entrepreneurial energies. The writer is a sociologist at the Institute of Economic Growth, Delhi.
