**Why the American dream is just a mirage**

Vincent Browne

There is an impossibly decorative word that has become a staple of the nation’s vocabulary, a word that heavy and burdened meaning beneath its polished surface, a word that has been corrupted to serve an ever-changing agenda, a word that is often misused and misunderstood. The word is “truth.”

The concept of “truth” is often used to cloak the reality of the situation. It is a word that has been co-opted by those in power to justify their actions. It is a word that is used to manipulate and control the masses. It is a word that is often used to cover up the truth.

The truth is that the American dream is just a mirage. It is a concept that has been built on a foundation of lies and deception. It is a dream that is not possible for the majority of people. It is a dream that is only accessible to the privileged few.

The truth is that the American dream is a myth. It is a concept that has been used to justify the inequalities in society. It is a concept that has been used to keep the poor and working class down.

The truth is that there is no such thing as the American dream. It is a concept that has been created to keep the masses in line. It is a concept that has been used to justify the injustices in society.

The truth is that the American dream is a mirage. It is a concept that has been used to manipulate and control the masses. It is a concept that has been used to justify the inequalities in society.
