HOW TO USE THE AARP VOTERS’ GUIDE:
AARP produced this guide to help you find out what candidates are saying about health and financial security in their own words.

HAVING TROUBLE CUTTING THROUGH THE POLITICAL CAMPAIGN CLUTTER?
AARP is committed to helping you get the facts you need to choose candidates who reflect your views and values. We are nonpartisan — we don’t support or oppose any political candidates or contribute any money to campaigns or political action committees. Our priority is ensuring you know where the candidates stand before you cast your vote.
Social Security

How would you protect Social Security for today’s seniors and strengthen it for future generations?

AARP’s Position:
Social Security should continue to guarantee that Americans who work and pay into the system receive benefits based on what they earn and contribute. Benefits should keep up with inflation and last for as long as an individual lives. We must strengthen Social Security for the future and protect benefits for people who count on them most, including surviving spouses and families, lower-wage workers, and disabled individuals who no longer can work. Social Security must be put on stable financial ground, but any adjustments should be implemented gradually so changes do not impact those in or near retirement.

Raul M. Grijalva (Dem):
One in six Arizonans receive Social Security which by law is prohibited from contributing to the deficit. Nearly one million Arizonan’s rely on Medicare which provides quality and efficient care…Raúl introduced the Budget For All which protects Medicare, strengthens Social Security and reduces the deficit…Raúl is promising to oppose any Social Security cuts. The program doesn’t add to the debt and helps retirees keep a good standard of living…Raúl supports fully funding our Medicare and Medicaid obligations… (Source: Grijalva Campaign Website, http://ow.ly/cwflz)

Gabriela S. Mercer (Rep):
We should honor our commitment to those Seniors who have paid into Social Security and Medicare and not tax them on their benefits. (Source: Tea Party Tribune, http://ow.ly/xwSj2)

Medicare

How would you put Medicare on stronger financial ground and protect today’s seniors and future retirees from rising health costs?

AARP’s Position:
Medicare should be strengthened and improved so both current and future generations can count on having access to high-quality, affordable coverage. Medicare should continue to guarantee a specific set of benefits that are affordable and meet a person’s health care needs. Medicare should offer choices that ensure access to high-quality health care. Medicare should improve the quality, safety, and efficiency of care by emphasizing value and cracking down on fraud, waste, and abuse.

Financial Security

How would you help Americans save so they can secure their future and live independently as they age?

AARP’s Position:
More opportunities and incentives should be available for all Americans to plan and save so they can have a more secure future. Freedom from age discrimination is a fundamental right and critical to Americans’ ability to have a secure retirement. Every worker should be treated fairly, regardless of age. We need to support family caregivers who make it possible for more seniors to live in their homes and communities, where they want, rather than taxpayers and struggling families paying for costlier care.

Raul M. Grijalva (Dem):
[...]Creating good jobs that build our intellectual and economic potential is how we make Arizona a better place to live, not just for us but for our children. Instead of low-wage jobs with few benefits, I’m working every day in Congress to create the economy of the future. As co-chair of the Congressional Progressive Caucus, I led the creation of the Restore the American Dream for the 99% Act, a comprehensive job creation package that would create millions of jobs in infrastructure, education and other crucial areas. Gabriela S. Mercer (Rep):
Jobs and economic growth are essential for this generation and beyond. We must support the return to the free-market principles that made our economy the envy of the world and provided prosperity for our families. I support lowering tax rates and reducing regulations so individuals and companies can flourish. (Source: Mercer Campaign Site, http://ow.ly/ybulS)
