The Political Analysis Toolkit

Power Tools for the Policy-Making Process

*The Political Analysis Toolkit* is a unique textbook featuring --

- Cutting-edge social science and the hard-won experience of professionals and practitioners distilled into learnable tools that really work
- A full range of tools for the entire policy process, from organizing collective action, law-making and legislative analysis, executive action, rule-making and regulation, all the way to program implementation and administration
- Dozens of engaging mini-cases illustrating political skills, tools, processes, and problems

In addition, the Toolkit is fully integrated with --

- Original and curated maxi-cases specifically keyed to the political analysis tools
- Original and curated simulations and role-playing exercises for experiential learning
- High quality on-line lectures
- Review questions, test-banks, and 18 PowerPoint banks with thousands of slides

The Toolkit is aimed specifically at master levels students in --

- Public Policy and Public Administration (MPA and MPP)
- Law (JD)
- Public Health (MPH)
- Education (MEd)
- Social Work (MSW)
- Environmental Studies and Environmental Management (MES, MEM)
- Journalism (MA or MS)
- Business (MBA)

And

- Early-career professionals who want to improve their performance
- Successful mid-career policy analysts poised for top management, where skill in political analysis is absolutely vital

The Political Analysis Toolkit teaches these people what they need to know to succeed in the policy process. Whether you are oriented toward the federal, state, or local governments, the non-profit sector, or NGOs, the Toolkit offers help, providing power tools for practical political analysis and action.
